Project Name	Inventory Management System For Retailer

Create An Account In Sendgrid:

The screenshot shows the Twilio SendGrid dashboard interface. On the left is a sidebar menu with options: Santhosh Kumar, Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area has a header 'Welcome, Santhosh!' with a sub-header 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue banner 'Send your first emails with Twilio SendGrid'. The main section is titled 'Create a sender identity' and contains instructions: 'Before sending email, you'll need to create a sender identity. There are two ways to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.' There are two buttons: 'Create a Single Sender' and 'Authenticate a domain instead'. To the right, there is a diagram showing an email header with 'Your Business' as the sender and 'your_business.com' as the domain. Below this, there is a section 'Send your first email' with a note: 'Please create a sender identity before sending your first email.'
